

Product:

5mm Baseplate : Zinc Plated

Product Code :

AOBP07

Product Description:

Manufactured from galvanised steel, sheared to 150 x 150mm with rounded corners, complete with 25mm OD welded spigot

Weight:

1.08kg

Dimensions:

150 x 150 x 5mm with rounded corners

Testing/Standards:

EN74-3

Zinc plated to BS EN 12329:2000

Guidance:

Transportation - care must be taken when transporting baseplates, ensuring that all components are secured in their storage and unable to become loose. Straps are used in appropriate areas and there is no risk of the strap fraying or becoming cut by any sharps.

Handling - care must be exercised when manually handling components, in line with manual handling procedures, particular care should be taken to avoid cuts from sharps.

Storage - all components must be stored in a manner that limits any detrimental environmental effect due to weather or corrosive substances. Please note the safe working load on each storage component prior to loading and stacking.

Inspection - routine inspections should be scheduled, it is best practice to inspect baseplates before each work shift and after any occurrence which could affect the integrity. All components should be properly maintained and examined before use to ensure that the plate is flat and spigot in place.

Traceability - 5mm baseplates supplied by Trademagic are fully traceable with unique identification code.
