

Product:

Ladder Trap Door/Hatch

Product Code :

AOLTD

Product Description:

Fabricated ladder trap/hatch complete with mesh infill and kickboard clamping system.

Weight:

10.00kg

Dimensions:

720 x 580mm

Testing/Standards:

Tested to BS EN 12811-1:2003

Powder coated to BS EN 13438

Guidance:

Transportation - care must be taken when transporting traps, ensuring that all components are secured in their storage and unable to become loose. Straps are used in appropriate areas and there is no risk of the strap fraying or becoming cut by any sharps.

Handling - care must be exercised when manually handling components, in line with manual handling procedures.

Storage - all components must be stored in a manner that limits any detrimental environmental effect due to weather or corrosive substances. Please note the safe working load on each storage component prior to loading and stacking.

Inspection - routine inspections should be scheduled, it is best practice to inspect traps before each work shift and after any occurrence which could affect the integrity. All components should be properly maintained and examined before use, paying particular attention to clamping system and condition of mesh.
